

JY/F-0018U Breastfeeding Simulator, Light

This simulator is a Replica of adult female breasts, life-size and lifelike, with wearable design and realistic anatomical structures.

It's equipped with adjustable straps for length and tightness, ensuring a secure fit for trainees and suitable for breast self-examination training.

It supports simulation and practice of breastfeeding and milk expression.

***Comes with one flexible neonatal baby manikin with a wide range of motion and palpable fontanel, realistically simulating a newborn, and ideal for demonstration of the correct position for breastfeeding;**

The simulator also supports the management of common breastfeeding problems, such as inverted nipple, swollen breasts, use of breast pump and painless lump, etc.

Material: vinyl

3 options of complexion are available:
Light, Dark, Neutral/Universal

Skin For Choose

Minimum order quantity for your choice of dark complexion is 20 units.
