

JY/F-0012

Gynecological Examination Simulator, Universal

This simulator represents an adult female lower torso model with accurate anatomical structures, integrated with the abdominal cavity, pelvic cavity, external genitalia and complete internal reproductive organs (uterus, ovary, fallopian tube, etc.), featuring well-defined anatomical landmarks and realistic tactile feedback, which is fully suitable for practicing gynecological examination procedures.

It supply with modular and fully interchangeable components, including 11 cervical models, 9 uterine & adnexal models and 2 fallopian tube models, which enable realistic simulation of various normal gynecological physiological conditions and a full range of pathological lesions of the cervix, uterus and fallopian tubes.

This simulator can be used for the following training programs:

1.Cervical Examination:Comes with a normal cervix model, which can be used to practice vaginal speculum and colposcope examination.

Comes with 10 interchangeable abnormal cervix models, easy for replacement.

Visually observe normal and abnormal lesion cervix for recognition and comparison.

2.Uterine Assessment

Comes with a normal uterus model, and the IUD can be inserted into or removed from the anterior uterine wall;

Comes with seven interchangeable abnormal uterus models, easy for replacement;

Comes with a gravid uterus model with 5-month gestation;

Comes with an uterus with ectopic gestation condition

Supports practicing normal and abnormal uterus palpation

Visually observe normal and abnormal uterus models for recognition and comparison.

3.Enables realistic simulation of salpingemphraxis.

4.Contraceptive Procedures:Supports placing and removal of IUD

5.Modular Anatomy

Comes with a set of 9 different uterus models, showing normal status and diseased cases;

Comes with a set of 11 different cervix models, showing normal status and diseased cases;

Comes with a set of 2 different fallopian tube models, simulation of salpingemphraxis and ectopic gestation conditions.

***Accurate gynecological anatomical structure, and costal cartilage can be seen and touched.**

Supports vagino-recto-abdominal examination of normal uterus and accessories;

Supports practice bimanual and trimanual pelvic examination.

Material: vinyl

3 options of complexion are available:

Light, Dark, Neutral/Universal

Skin For Choose

Minimum order quantity for your choice of dark complexion is 20 units.
